

WV Virtual School Grading

Unlike traditional brick and mortar schools, in WV Virtual School (WVVS), all students start out with a zero (0) percent. Do not panic!

As students continue to progress through their course work, the percentage will increase. This percentage increase demonstrates the percentage of the course the student has completed.

Students may monitor their grades by logging in to their WV Learns account, selecting a course, then selecting the Grades tab.

Students should pace themselves through their coursework. Wyoming County Schools has developed sample pacing guides for courses.

50% of class needs to be completed by November 6, 2020.

100% of class needs to be completed by January 22, 2021.

End of 1st Quarter: November 2, 2020

End of 1st Semester: January 25, 2021
