She said to start, Computer Applications I will include basic computer skills, including career exploration, Microsoft programs, and desktop publishing. She said these skills can be used in several other courses, and throughout students' careers, as well.

Mr. Davis asked what grades would be offered the Computer Applications I course.

Ms. Hall said students have the option to take this course anytime, although having students take the course in 9th or 10th grade would be ideal. Computer Applications II. She said it is also possible the newer teachers have the necessary courses to teach the course.

After a brief discussion, Mr. Davis made a motion, seconded by Mr. Stiltner, to approve the Content Standards for Computer Applications II, as presented and recommended by Mrs. Cline, Superintendent. Passed with a 5-0 vote.

Ms. Hall provided Board Members with an updated list of Secondary Course Code Descriptions. She said there are two main reasons for updating the Course Code Descriptions. She said the NCAA is provided a list of the County's course codes to help with evaluating student transcripts, if the student decides to play a college sport. Ms. Hall said when working with students to plan their high school academic career, it is vital to have descriptions of the courses to help with scheduling. She said prerequisites are also listed in the descriptions. She said she plans to put the course code descriptions on the County website in the near future.
